

# Fatal Crash Follow-up

## 4348 Southern Ave

### Description of crash:

The driver of a Cadillac CTS was traveling, at a high rate of speed, northbound on Southern Avenue, Southeast, when he lost control and struck a utility pole in front of 4348 Southern Avenue SE.

### Crash information (Source: MPD)

Date of crash	5/22/20
Crash Complaint Number (CCN)	20076054
Type of crash	Single vehicle

## Site visit notes

- Present: DDOT and MPD.
- Street Design Context: Mid-block

### Factors noted on site visit:

- Long period of time between crash, and passing of the decedent so MPD does not know as much about the dynamics of the crash.
- Some faded road markings on this block

## Next steps

### Short-term DDOT action items (timetables pending):

- Pavement marking improvements, including refurbishing.

### Further DDOT evaluations (timetables TBD):

- Adding rotating speed camera boxes and cameras along Southern Ave; several members of Operations, Community Engagement completed a site visit to the area
- Fatality is located on a high-injury corridor, which VZ has DRAFT recommendations for, to be developed further in VZ 2.0 plan.
