

**LEGEND: DDOT Made In America categories**

DDOT shall abide by domestic content preference mandates for procurement for all articles, materials, and supplies that are consumed in, incorporated into, or affixed to all public infrastructure projects in the following categories: (1) iron or steel; (2) manufactured product; (3) construction material; or (4) BABA 70917(c) Item.

Prime Contractor Representative shall certify to DDOT that all articles, materials, and supplies furnished at the job site for an infrastructure project abides by all applicable domestic content preference laws using the following categories for standard DDOT Pay Items list. Please find the DDOT Made In America Compliance Certificate Form at <https://ddot.dc.gov/page/contractors-information-center>

1	<b>Iron &amp; Steel</b> (including wholly or predominantly, greater than 50 percentage, of iron or steel or a combination of both),	certification requires all manufacturing processes, from initial melting, through final shaping, coating (epoxycoating, galvanizing, aluminizing, painting, etc. to protect or enhance value), and assembly, occurred in the United States.
2	<b>Manufactured Product</b>	certification requires that (1) product was manufactured in the United States, and (2) the cost of the components that is mined, produced, or manufactured in the United States is greater than 65% of total cost of all components of the product.
3	<b>Construction Material</b>	
	i. Non-ferrous Metals	certification requires all manufacturing processes, from initial smelting or melting through final shaping, coating, and assembly, occurred in the United States.
	ii. Plastic and Polymer-Based Products	(including polyvinyl chloride, composite building materials, and polymers used in fiber optic cables), certification requires all manufacturing processes, from initial combination of constituent plastic or polymer-based inputs, or, where applicable, constituent composite materials, until the item is in its final form, occurred in the United States.
	iii. Glass (including optic glass)	certification requires all manufacturing processes, from initial batching and melting of raw materials through annealing, cooling, and cutting, occurred in the United States
	iv. Fiber Optic Cable (including drop cable)	certification requires all manufacturing processes, from the initial ribboning (if applicable), through buffering, fiber stranding and jacketing, occurred in the United States. All manufacturing processes also include the standards for glass and optical fiber, but not for non-ferrous metals, plastic and polymer-based products, or any others.
	v. Optical Fiber	certification requires all manufacturing processes, from the initial preform fabrication stage through the completion of the draw, occurred in the United States.
	vi. Lumber	certification requires all manufacturing processes, from initial debarking through treatment and planing, occurred in the United States.
	vii. Engineered Wood	certification requires all manufacturing processes from the initial combination of constituent materials until the wood product is in its final form, occurred in the United States.
viii. Drywall	certification requires all manufacturing processes, from initial blending of mined or synthetic gypsum plaster and additives through cutting and drying of sandwiched panels, occurred in the United States.	
4	<b>BABA 70917(c) Item</b>	<b>NOTE: While these items are exempt for BABA, unless its commercially available shelf (COTS) item, it may not be waived under Buy American Act that also applies for the District of Columbia</b>
	i. Cement and cementitious materials	Certification requires all manufacturing processes occur in the United States
	ii. Aggregates such as stone, sand, or gravel	Certification requires all manufacturing processes occur in the United States
	iii. Aggregate binding agents or additive	Certification requires all manufacturing processes occur in the United States
5	<b>Made In America Exempt</b>	Articles, materials, supplies, that will not be consumed in, incorporated into, or affixed to a public infrastructure project
6*	<b>NOTE: Special Items</b>	All requests for modification or changes to approved standard item or a new item, will be determined on a case-by-case basis by the DDOT liaison or, when necessary, upon full review by DDOT materials team
