

PUBLIC MEETING

Rehabilitation of Pennsylvania Avenue Bridge Over Rock Creek & Rock Creek Parkway

The District Department of Transportation (DDOT) would like to invite the public to attend an informational meeting on the Rehabilitation of the Pennsylvania Avenue Bridge over Rock Creek & Rock Creek Parkway. The purpose of the meeting is to discuss the construction activities planned for the project and how they will affect businesses, residents, and public areas.

Community Information Pre-Construction Meeting

Wednesday, December 7, 2016 6:30 PM – 8:00 PM

GWU's Fungler Hall – Room 103 – 2201G Street, NW

Project Information

DDOT is rehabilitating the Pennsylvania Avenue Bridge over Rock Creek and Rock Creek Parkway. The project is expected to take 14 months and its effects on the area will be closely monitored with daily outreach to area businesses and citizens to ensure that construction activities are well-planned, with the least amount of disruption as possible.

The rehabilitation includes repairing and repainting the structural features of the bridge; a partial deck replacement; re-paving roadway approaches and re-aligning the Rock Creek Parkway exit ramp tie-in with Pennsylvania Avenue; cleaning and restoring the stone masonry and façade, including removal of graffiti; upgrading the lighting; reconstructing the sidewalks, with ADA-complaint sidewalk ramps and curbs.

In the Spring of 2017, to perform the necessary work, a detour of westbound Pennsylvania Avenue traffic will be implemented. Westbound traffic will be detoured onto 26th Street, NW to M Street, NW while eastbound traffic will not be impacted. Pedestrian and bike traffic will continue to use the bridge during construction, and work will be coordinated closely with WMATA to maintain bus stop access. Advance notice of detour will be provided.
