

WELCOME

STUDY AREA

TIDAL BASIN

PROJECT PURPOSE

- Analyze structure of the bridge and prepare short term remediations
- Analyze the long-term multi-modal capacity improvements that include the future operating requirements of high-speed and intercity passenger rail, commuter rail, transit, bike and pedestrian, and freight services over the Potomac River
- Analyze multi-modal connectivity and operational improvements

PROJECT SCOPE

- Data Collection
- Public Involvement
- Agency and Bridge User Involvement
- Transportation Analysis & Evaluation
- Alternatives Development
- Environmental Screening
- Recommendations

PROJECT NEEDS

| Needs | Your Preference |
|------------------------------------|-----------------|
| Multi-modal Access | |
| Inter-Modal Connectivity | |
| Long-term Capacity | |
| Transportation Demand | |
| Support Existing & Future Land Use | |
| Operational Improvements | |
| System Linkages | |
| Improve Structural Conditions | |
| Other | |

SCHEDULE

| Milestone | Date |
|--|---------------------------|
| Data Collection, Analysis and Evaluation | Fall 2012 / Winter 2013 |
| Bridge Alternatives and Conceptual Engineering | Winter 2013 / Spring 2013 |
| Environmental Review | Spring 2013 / Summer 2013 |
| Final Report | Summer 2013 |

PUBLIC INVOLVEMENT

Anticipated Meeting Dates

Public Meeting #1 November 13, 2012

Public Meeting #2 Winter 2013 / Spring 2013

Public Meeting #3 Summer 2013
