

WELCOME

PROJECT PURPOSE

- Analyze multi-modal connectivity and operational improvements
- Analyze the long-term multi-modal capacity improvements that include the future operating requirements of high-speed and intercity passenger rail, commuter rail, transit, bike and pedestrian, and freight services over the Potomac River
- Analyze structure of the bridge and prepare short term remediations

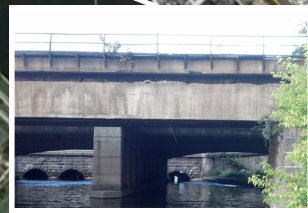

PROJECT CONSIDERATIONS

- Ownership
- Location of Right of Way
- Aesthetics
- Constructability
- Safety
- Funding
- Accessibility
- Operational Capacity
- Future Demand

STUDY AREA

TIDAL BASIN

SCHEDULE

Milestone	Date
Data Collection, Analysis and Evaluation	Fall 2012 / Winter 2013
Bridge Alternatives and Conceptual Engineering	Winter 2013 / Spring 2013
Environmental Review	Spring 2013 / Summer 2013
Final Report	Summer 2013
