1 Overview

The purpose of the 2022 American with Disabilities Act Transition Plan Update is to report the accomplishments of the District Department of Transportation (DDOT) for Fiscal Year 2021 (FY21). DDOT has a firm commitment not to discriminate against individuals with disabilities in its services, programs, or activities, and will honor and work to satisfy the requirements of Titles I through V of the Americans with Disabilities Act of 1990 (ADA).

DDOT is fully committed to upgrading the Public Right of Way (PROW) so that persons with disabilities have equal access and safety in their travel opportunities within the District of Columbia (District). Whenever DDOT substantially paves, repaves, resurfaces, or engages in construction of a roadway, bridge, or tunnel, it will bring that portion of the PROW into compliance with the ADA. DDOT adheres to the guidance provided in the Public Rights of Way Accessibility Guidelines (PROWAG), published in the Federal Register on July 26, 2011, by the US Access Board. Specific technical specifications can be found in the [Design and Engineering Manual \(2019\)](#).

The FY22 update focuses on providing information regarding any modifications made to DDOT's Standards and Regulations related to programs, services, and activities within the PROW. In addition, the ADA Transition Plan provides information regarding completed locations for removal of barriers; and outlines DDOT's proposed locations to address non-compliance of the ADA for Fiscal Year 2022 (FY22).

2 Standards and Regulation

DDOT ensured that the modifications implemented in FY21 met the minimum accessibility per the ADA Design Standards. As the District of Columbia continues to modify the services, programs and activities following safety and health protocols for COVID19, DDOT continued on-going efforts to enhance the District's multimodal network. All enhancements implemented were reviewed by the Equity and Inclusion Division to include accessibility and compliance with the ADA Design Standards.

2.1 Curbside services modifications:

2.1.1 Pick up Drop off Zones

As a continuation from FY21, DDOT continued to work on the evaluation and implementation of temporary Pick Up Drop Off (PUDO) zones. DDOT ensured that PUDO zones provided connection to the sidewalks through the intersection curb ramp and that such implementations did not disrupt the use of both sidewalk and PUDO zones for persons with disabilities. During FY22, DDOT will work on the permanent implementation of the temporary PUDO zones. The Curbside Management Division will develop a procedure for approval and design guidance for permit applicants for PUDO Zone requests for commercial use.

2.1.2 Protected Bike Lines

To expand the multimodal transportation network, DDOT continued the implementation of Protected Bike Lanes to promote the use of other methods of transportation. During FY21, DDOT’s Equity and Inclusion Division worked with the Planning and Sustainability Divisions to ensure accessibility compliance for PUDO zones and on-street parking where the protected Bike lanes are implemented. During FY21 DDOT installed 9.8 miles of bicycle lanes and shared-use paths.

2.1.3 Parklets and Streatery Zones

During FY21, restaurants were able to open outdoor seating with physical distancing and safeguards measures, which are also known as “Parklets” or “Streatery Zones. DDOT approved approximately 158 Streateries throughout the District for FY21. To approve these temporary Parklets and Streatery Zones, DDOT ensured all permit holders had a moveable accessible ramp to the seating area from the sidewalk. This accessible ramp allowed person with disabilities to make use to the Parklets/Streatery Zones and removed barriers to obtaining equal access to Streateries and Parklets. As part of the efforts for FY22, DDOT’s Planning, and Sustainability Division will work on the development of permanent standards and guidelines to follow for the implementation of Streateries to be finalized by September 2022. Currently DDOT have approved 375 Streateries. Table 1 below provides the number or Streateries implemented byWard.

2.1.4 Floating Bus Stops and Shared Pedestrians/Bike Bus Stops

During FY22, DDOT is working towards delivery of 51 bus priority projects. These projects will help to meet the moveDC strategy of implementing dedicated bus lanes, plus additional targeted improvements at bus stops and intersections to speed up buses. In addition to the 51 projects, projects funded by other sources also incorporate bus priority improvements, all together totaling over 60 miles of bus priority corridor projects. Over 25 miles of these corridor projects are already underway or will be in planning or design in FY22 or FY23.

DDOT will work with the Washington Metropolitan Area Transit Authority (WMATA) to ensure the accessibility of the implementation of floating Bus Stops and Shared Pedestrians/Bike lane bus stops as part of the Bus Prioritization Program. Both Bus Stops will allow safety for pedestrians and bicyclist along multiple corridors in the District. Currently, the program has 6.2 lane-miles of bus lanes, two active construction projects (16th St NW and Minnesota Ave SE projects), and two more to start soon (H St NW and Penn Ave SE).

3 Public Outreach

3.1 Public Meetings

DDOT ensured information regarding services and programs were provided to District residents and visitors in an accessible format. Information was provided using alternate text and accessible meeting formats for public outreach interaction such as large prints, Sign Language Interpreters, closed captioning, or a Communication Access Realtime Translation (CART) service. Alternate text formats were used for Notices of Intent, flyers, and public meeting announcements. Also, during virtual public meetings presentations held using social media platform or virtual meeting software such as Webex, MS Teams or ZOOM, DDOT provided accessible slide presentations with screen reader capability and descriptive text to replace slide presentations in compliance with Section 508 of the Rehabilitation Act. The list below provides the events DDOT hosted and attended during FY21:

October 2020

- MoveDC Virtual Town Hall, October 13, 2020, 6:30pm-8:00pm
- Circulator Ward 7, October 14, 2020, 6:30pm-8:30pm
- MoveDC Virtual Town Hall, October 15, 2020, 1:30pm-3:00pm

November 2020

- 10th Annual DBE Summit, November 9, 2020, 8:30am-1:30pm
- FDMB Virtual Public Meeting 1 (Ward 6), November 18, 2020, 6:00pm-7:00pm
- FDMB Virtual Public Meeting 2 (Ward 8), November 19, 2020, 6:00pm-7:00pm

December 2020

- DC PLUG Feeder 368 Virtual Public Meeting, December 10, 2020, 6:30pm-8:00pm

January 2021

- Public Hearing for Proposed Request for Proposals to the DC Smart Street Lighting Project, January 12, 2021, 5:30pm-6:30pm

3.2 District-Agencies and Community Partnerships

DDOT's Accessibility and Inclusion Team collaborated with organizations to share information and provide updates on the removal of physical barriers; identified protruding objects for services and programs and ensured accessible virtual meeting formats were accessible. The list below provides a list of the organizations that DDOT collaborated with during FY21 and the outcome of such collaboration:

- **Age Friendly DC** – Discussed the accessibility of sidewalk and the need of inclusion of a multimodal network in the District.

- **DC Office of Disabilities Rights (ODR)** – Discussed the implementation of protected bikes lanes and how to address any impacts to PUDO Zones for facilities.
- **Multimodal Accessibility Advisory Council (MAAC)** – Identified protruding objects, such as sidewalk trip hazards, steep slopes on curb ramps, and traffic signals modifications, for services and programs and implementation for the removal of such barriers identified. Initiated conversation on ongoing and future Capital Improvement projects that will improve accessibility in the PROW.

4 Inventory of Barriers

4.1 DDOT’s Inventory of Barriers

During FY18, DDOT evaluated its inventory of assets, consisting of sidewalks, curb ramps, bus stops, and Audible Pedestrians Signals (APS) Devices, throughout the District’s PROW to determine their compliance with ADA Standards. Table 1 below shows the number of assets identified and their compliance status as of the end of FY18.

Asset	FY 2018 Data Collection		
	Total Assets	Non-Compliant	Compliant
Curb Ramps	36,353	30,349	6,001
Bus Stops	3,213	1,856	1,357
APS Devices	5,404	5,298	106
Sidewalk (miles)	2,687.27	1,585.49	1,101.78

Table 1. FY18 Assets Compliance Status

As a continuation of the efforts to remove physical barriers in the PROW, Table 2 below shows the number of assets and sidewalk miles improved from FY19 to FY21. In FY21, DDOT removed 1251 physical barriers and corrected 140.46 miles of sidewalk. Table 3 below shows the number of assets identified and their compliance states as of the end of FY21. The removal of barrier is lower from the previous years as the budget was reduced from FY20 and FY21 by \$11,023,351.33.

However, there was an increase in the APS devices asset compliance as the devices were updated as part of the maintenance work of the traffic signals at intersections.

Asset	Physical Barriers Removed		
	FY 2019	FY 2020	FY 2021
Curb Ramps	1400	1941	1,054
Bus Stops	29	44	28
APS Devices	112	106	169
Sidewalk (miles)	54.05	55.53	30.88

Table 2. FY19 to FY21 Physical Barriers Removed

Asset	Current Status of Inventory of Barriers as of FY 2021	
	Non-Compliant	Compliant
Curb Ramps	25,954	10,396
Bus Stops	1,755	1,458
APS Devices	4,911	493
Sidewalk (miles)	1,445.02	1242.25

Table 3. Current Status of Assets as of FY21

DDOT continues to improve the transportation system to be more accessible and expand the multimodal network by expanding the amount of bike lane and transit lanes in the District. DDOT is committed to continue its efforts in removing physical barriers as part of its maintenance operations and capital improvement projects. To ensure those improvements, DDOT has allocated \$2,000,000.00 ADA compliance improvement project for FY22 to promote the removal of barriers in the District.

In addition, DDOT plans to update the inventory of barriers data collection software during FY22 to stay abreast with the latest accessibility standards and technology changes.

5 Locations Completed during Fiscal Year 2021

DDOT continued the efforts of removing physical barriers identified by the inventory of barriers as part of our maintenance work in the PROW. DDOT’s Sidewalk Plan is to continue making paths of travel accessible to all and ensuring compliance of the PROW domain. In FY21, DDOT spent \$14,478,437.05 on sidewalk improvements and was able to improve 30.88 miles of sidewalk. The removal of physical barriers is lower from the previous years as the budget was reduced from FY20 and FY21 by \$11,023,351.33. Such improvements also provided ADA compliance to 27 bus stops and 1,054 curb ramps. In addition, DDOT was able to modify and improve 28 intersections to include Audible Pedestrians Signals (APS) devices.

The following maintenance projects removed physical barriers throughout the District, as part of their work:

5.1 Federal Aid Pavement Restoration Project

During FY21, DDOT’s Federal Aid Pavement Restoration Project worked along multiple corridors and intersections, providing compliance to multiple assets in the sidewalk and pavement in the District. The Federal Aid Pavement Restoration spent \$1,095,183.09 in sidewalk improvements and provided 2.37 miles of sidewalk in barrier removal. These efforts for barrier removal included improvements to the pedestrians’ access routes, bus stops, and curb ramps. Most of the locations and work for the project were based in Wards 5 near schools and residential areas creating connections to transit stations and businesses. Such improvements are smaller than the previous year as there was a budget decrease of \$4,029,098.98. As part of the sidewalk work,

the Federal Aid Pavement Restoration project repaired 68 curb ramps. See [Appendix A](#) for a full list of locations completed.

5.2 National Highway System - Federal Aid Pavement Restoration Project

During FY21, National Highway System (NHS) - Federal Aid Pavement Restoration Project worked along multiple corridors and intersections, providing compliance to multiple sidewalk and pavement assets. The NHS - Federal Aid Pavement Restoration Project spent \$576,770.22 in sidewalk improvements and provided 4.13 miles of sidewalk in barrier removal. These efforts included improvements to the pedestrians’ access routes, bus stops, and curb ramps. The project primarily focused on completing work in Ward 2 and Ward 5 near transit stations and main corridors. See [Appendix B](#) for a full list of locations completed.

5.3 Local Sidewalk Restoration Citywide Project

During FY21, the Local Sidewalk Restoration Citywide Project worked along multiple corridors and intersections and provided compliance to multiple assets in the sidewalk and pavement. The project spent \$9,636,483.75 and provided 24.38 miles of sidewalk in barrier removal. These efforts included improvements to pedestrian access routes, bus stops, and curb ramps. Most of the locations and work for the project was based in Wards 5 and 7 near residential areas creating connections to transit stations and main corridors in the East quadrant of the District. As part of the sidewalk work the Local Sidewalk Restoration Citywide Project repaired 823 curb ramps. Such improvements are smaller than the previous year as there was a budget decrease of \$8,757,555.81. See [Appendix C](#) for a full list of locations completed.

7	42	4.03
8	13	1.63

Table 5. Number of locations and sidewalk miles improved for ADA compliance based on Wards for the Local Sidewalk Restoration Citywide Project

5.4 Traffic Engineering and Safety Project

During FY21, Traffic Engineering and Safety Project worked along multiple intersections, providing safety and accessibility compliance. The Traffic Engineering and Safety Project provided full optimization and installed Accessible Pedestrian Signals (APS) to the intersections within the District. Also, the project implemented Leading Pedestrians Intervals (LPI) where needed, improved crosswalk markings and repaired curb ramps. The project selected locations for traffic signal modifications based on: requests made through DDOT’s 311 Request Line, and safety needs based on pedestrians/vehicular interaction data. As part of the improvements, the Traffic Engineering and Safety Project installed 169 APS devices and repaired 157 curb ramps. See [Appendix D](#) for a full list of locations completed.

6 Proposed Locations for Fiscal Year 2022

DDOT is committed to implementing effective removal of physical barriers to meet compliance with the ADA within the PROW. The ADA coordinator will continue to partner with the various DDOT Administrations, District Agencies, and communities to ensure implementation of the ADA Transition Plan, and prioritization of addressing non-compliant assets in the PROW domain. DDOT initiated the scope of locations within projected maintenance projects for FY22. [See Appendix E and F](#) for the full list of sidewalks (pedestrian access route), bus stops, and curb ramps improvements. The list of projects is produced by the amount of service requests received, and the assessment of sidewalk compliance with ADA. The projected locations are expected to address 34.45 miles of sidewalk. The proposed locations for FY22 are subject to change pending budget reallocations and inclement weather delay.
